

TAG designing fire station

ARCHITECTURE

TAG International LLP www.tagae.com, an Austin-based architecture and land development consulting firm, has been hired to design a new central fire station and emergency operations center for the Rio Grande Valley city of **Mission** www.missiontexas.us.

Financial terms weren't disclosed.

The project will include adaptive reuse of a 10,000-square-foot post office with a 13,000-square addition. The cost of construction is estimated at \$3 million.
